Suggestions For Using Activities

Pre-Reading Activities – Before You Read

These activities are designed to activate children’s prior knowledge and build concepts or background information. They will motivate children to read and help them to understand the story better. Children can discuss answers to the questions with a partner, in a small cooperative learning group, or with the entire class.

Word Study – Full of Action

This page presents examples and brief instructional material on verbs, called “action words.” After locating the action words in three sentences, children supply the missing verb in five sentences that relate to the story. Then children write several original sentences and circle the action word in each.

Understanding the Story – Story Questions, Picture Questions

The Story Questions include a number of literal, inferential and evaluative questions that help children focus on major story elements. The Picture Questions help children draw inferences from the illustrations. Depending upon the level of the group, you may wish to have children respond orally or in writing.
