

About the Authors

Evelyn R. Klein is director of the Early Childhood Development and Evaluation Program and senior research associate at Temple University Center for Research in Human Development and Education. In her current position, she is the mid-Atlantic coordinator for America Reads and co-author of the Head Start on Science and Communication Program. Dr. Klein holds the bachelor's and master's degrees in speech-language pathology and the doctoral degree in educational psychology. As a speech-language pathologist serving children and adults, she has worked in schools, rehabilitation facilities, and home health agencies. She holds the Certificate of Clinical Competence from the American Speech-Language-Hearing Association.

Dr. Klein is also a licensed psychologist with a post-doctoral certificate in neuropsychology from Drexel University. She is co-author of *Focus on Function* (published by Communication Skill Builders in 1989), and coordinated the federal dropout prevention program, *It's Magic (Maximizing Academic Growth by Improving Communication)*. She has published articles in numerous journals and has presented at local and national conventions.

Shelly E. Hahn is the executive director of Main Line Speech Consultants in Haverford, Pennsylvania. She has been in private practice since 1980, treating individuals of all ages who have speech and language deficits. She is a consultant to various medical and educational facilities and serves on several professional advisory boards for special needs programs and home-care agencies.

Shelly Hahn received the bachelor's degree from the University of Pittsburgh, master's degree in Speech-Language Pathology from Ohio University, and MBA in Health Care Administration from Temple University. A licensed speech-language pathologist, Ms. Hahn holds the Certificate of Clinical Competence from the American Speech-Language-Hearing Association. Ms. Hahn is co-author of *Focus on Function* and was a contributor to the development of the language portion of the *Miller Assessment for Preschoolers*. She has written a number of newspaper articles about language disorders in children and adults.
