The War Begins

People the world over were very nervous about the idea of facing Saddam Hussein and the ruthless Republican Guard in a war. Saddam, it was said, "simply does not understand fear." The Iraqi army was believed to number over 1.2 million and supporting them were over 750 fighter planes and bombers.

Shortly after the invasion of Kuwait, the United States, under the leadership of George H.W. Bush, began sending troops and military equipment to the Gulf region to help protect other nations in the area, and to protect their sources of oil in the Middle East. This was known as **Operation Desert Shield**.

Why do you think President Bush gave it the name "Operation Desert Shield"?

The United Nations told Iraq that it must leave Kuwait by January 15, 1991. The whole world then held its breath. In the meantime a number of nations, including Great Britain, France, and Canada joined the **Coalition** in Operation Desert Shield.

When the January 15th deadline passed and Iraq refused to leave Kuwait, President Bush ordered the start of the air attack on Iraqi military targets. Operation Desert Shield had become **Operation Desert Storm**.

Operation Desert Storm began with the most awesome air assault ever. In the first week they flew almost 5,000 missions – losing only ten planes. Tomahawk cruise missiles and "Stealth" fighter planes were used for the first time in combat. The "Stealth" bombers dropped laser-guided "smart bombs" with pinpoint accuracy.

The war against Saddam Hussein and his armies was only beginning. How tough an opponent would the Iraqi army prove to be in this critical next phase of the war – the ground war?
