Preface	xi
PART 1: INTRODUCTION	1
Chapter 1: Introduction to Communication	3
Introduction	5
What Is Communication?	5
What Is Language?	9
What Is Speech?	9
What Is Hearing?	10
How Are Communication, Language, Speech, and Hearing Related?	10
Culture and Communication	10
Chapter 2: Introduction to Communication Disorders and Communication Science Professions	13
Introduction	15
What Is a Communication Disorder?	15
Impact on Interpersonal Relationships	21
Multicultural Issues and Concerns	24
Assessment/Diagnosis and Management/Intervention	26
The Professions of Communication Sciences and Disorders	30
PART 2: LANGUAGE DEVELOPMENT AND DISORDERS	33
Chapter 3: Child and Adolescent Language Development	35
Introduction	37
Language Form	37
Language Content	38
Language Use	39
Language Development	39
Relationships among Language Development, Literacy, and Academic Success	62
Chapter 4: Child and Adolescent Language Disorders	65
Introduction	67
Disorders of Language Form, Content, and Use	68

Contents

Language Disorders with Specific Etiologies	69
Adolescent Language Disorders	76
Language Disorders versus Language Differences.....	77
Management of Language Disorders	80
Chapter 5: Adult Neurogenic Language Disorders.....	87
Introduction	89
Neurology of Aphasia	90
Causes of Brain Damage and Resulting Aphasia	91
Language Characteristics of Aphasia	91
Classification of Aphasia.....	92
Other Characteristics of Left Hemisphere Damage	96
Right Hemisphere Deficits	98
Management	99
PART 3: SPEECH DISORDERS	103
Chapter 6: Voice Production and Disorders	105
Introduction	107
Overview of the Speech Mechanism	107
Voice Production	110
Voice and Resonance Disorders.....	113
Management	120
Chapter 7: Speech and Swallowing Disorders Associated with Dysarthria.....	123
Introduction	125
Dysarthria	125
Dysphagia	129
Chapter 8: Articulation and Phonological Disorders	133
Introduction	135
Production of Speech Sounds	136
Classification of Speech Sounds.....	137
Phonological Disorders	139
Articulation Disorders.....	141
Management	147

Chapter 9: Fluency Disorders	151
Introduction	153
Normal versus Abnormal Speech Fluency	153
Types of Disfluencies	155
Fluency Disorders	157
Management	165
PART 4: HEARING DISORDERS	171
Chapter 10: Hearing and Hearing Disorders	173
Introduction	175
Physics of Sound.....	175
Anatomy and Physiology of the Hearing Mechanism	178
Types and Causes of Hearing Disorders.....	180
Chapter 11: Management of Hearing Disorders.....	191
Introduction	193
Hearing Testing	193
Augmenting Hearing and Communication	195
Communication Strategies	198
Aural Rehabilitation	200
PART 5: COMMUNICATION SCIENCES AND DISORDERS: THE PROFESSION.....	203
Chapter 12: Where Did Communication Sciences and Disorders Come From?.....	205
Introduction	207
Milestones through History.....	208
Social Influences on Intervention	217
Chapter 13: Professional Roles, Work Settings, and Ethics.....	219
Introduction	221
Speech-Language Pathology and Audiology Professionals	221
Becoming a Speech-Language Pathologist or Audiologist.....	227
Work Settings	231
Ethics	234

Contents

Chapter 14: The Clinical Relationship	235
Introduction	237
What Is the Clinical Relationship?	237
Characteristics of a Good Therapeutic Relationship.....	238
Variables That Influence a Clinical Relationship	241
Chapter 15: Assessment, Evaluation, and Diagnosis	249
Introduction	251
The Clinical Evaluation Process	251
Questions Clinicians Ask during an Initial Evaluation.....	261
Questions Clinicians Ask during a Reevaluation	265
Chapter 16: Intervention	267
Introduction	269
Steps in the Intervention Process	270
Chapter 17: The Clinician's Responsibilities	279
Introduction	281
The Clinician as Clinician-Investigator	282
The Clinical Research Process	283
Glossary	293
References	315
Author Index	333
Subject Index	339
