# Teacher Guide

*Our resource has been created for ease of use by both TEACHERS and STUDENTS alike.*

## Introduction

This study guide is designed to supply the teacher with a number of helpful ways of making the study of this novel a more enjoyable and profitable experience for the students. The guide features a number of useful and flexible components, from which the teacher can choose. The study guide allows students to follow along with questions designed to encourage an understanding of what is being read.

The study guide divides the novel by chapters and features reading comprehension and vocabulary questions designed to focus on specific sections of the novel. Questions are specially designed to reflect what is being read in the designated chapter. A Journaling Prompt is located at the end of each chapter section, designed to encourage further individual thought in your students. Students will be able to reflect on their own, or participate in group discussions.

• The AFTER YOU READ activities check students' comprehension and extend their learning. Students are asked to give thoughtful consideration of the text through creative and evaluative short-answer questions and journal prompts.

Six Writing Tasks and three Graphic Organizers are included to further develop students' critical thinking and writing skills and analysis of the text. (See page 6 for suggestions on using the Graphic Organizers.) The Assessment Rubric (page 4) is a useful tool for evaluating students' responses to the Writing Tasks and Graphic Organizers.

Important concepts and vocabulary from the chapters are also presented on this page.
