

CONTENTS

Preface xi

CHAPTER 1

Communication and Its Disorders 1

- Human and Animal Communication 1
- Language and Communication 2
- Communication and Social Survival 3
- The Study of Human Communication 4
- Disorders of Communication 21
- Classification of Communicative Disorders 22
- Prevalence of Communicative Disorders 30
- Effects of Communicative Disorders 32
- Chapter Summary 35
- Study Questions 36
- References 37

CHAPTER 2

Culture and Communication: Diversity and Disorders 39

- Language and Culture 41
- Multicultural United States 41
- Multilingual United States 42
- Primary English Dialects 45
- Secondary English Dialects 56
- Native American Languages 59
- Bilingualism 60
- Differences Versus Disorders 63
- Dialects and the Speech–Language Pathologist 65
- Myths and Stereotypes to Avoid 68
- Chapter Summary 68

Study Questions 70
References 70

CHAPTER 3

A Profile of Speech–Language Pathologists and Audiologists 73

Speech–Language Pathologists 73
Audiologists 86
Chapter Summary 91
Study Questions 91
References 92

CHAPTER 4

Anatomy and Physiology of Speech and Language 93

Structural Mechanisms of Speech Production 96
The Respiratory System 97
The Phonatory System 100
The Articulatory System 108
The Nervous System 116
Chapter Summary 130
Study Questions 131
References 132

CHAPTER 5

Articulation and Phonological Disorders 133

Experiments in Infant Speech Perception 134
The Inadequate Alpha, Beta 137
Sounds, Phonemes, and Allophones 138
Classifications of Speech Sounds 140
Acquisition of Speech Sound Productions and Sound Patterns 145
Speech Intelligibility 150
Articulation and Phonological Disorders 150
Descriptions of Articulation and Phonological Disorders 154
Potential Causes of Articulation and Phonological Disorders 161
Articulation Screening 167
Assessment of Articulation and Phonological Disorders 168
Assessment of Articulation in Relation to Ethnocultural Factors 171
Treatment of Articulation and Phonological Disorders 172
Chapter Summary 178
Study Questions 178
References 179

CHAPTER 6

Language Acquisition and Disorders in Children 183

- The Study of Language Acquisition 185
- Early Language Acquisition 187
- Later Language Acquisition 195
- Theories of Language Acquisition 201
- Disorders of Language 208
- Potential Causes and Associated Problems 214
- Assessment of Language Disorders 216
- Treatment of Language Disorders 221
- Chapter Summary 228
- Study Questions 229
- References 230

CHAPTER 7

Fluency and Its Disorders 233

- A Child's Story of Stuttering 233
- Some Basic Characteristics of Stuttering 239
- What Some People Who Stutter Tell Us 248
- Prevalence of Stuttering 249
- Theories of Stuttering 252
- Assessment of Stuttering 259
- Treatment of Stuttering 262
- Cluttering 271
- Chapter Summary 274
- Study Questions 275
- References 275

CHAPTER 8

Voice and Its Disorders 279

- Nathan, the Talkative Child 279
- Voice, the Sound of Speech 281
- Prevalence of Voice Disorders 283
- Classification of Voice Disorders 284
- Aphonia 285
- Dysphonia 288
- Some Common Causes of Voice Disorders 296
- Spasmodic Dysphonia 309
- Evaluation of Voice Disorders 310
- Treatment of Vocal Abuse 316
- Chapter Summary 319

Study Questions 320
References 321

CHAPTER 9

Cleft Palate and Communicative Disorders 323

What Are Clefts? 324
What Causes Clefts? 326
Types of Clefts 328
Varied Problems Associated with Clefts 328
Medical Rehabilitation 336
Assessment of Communicative Disorders 340
Treatment of Communicative Disorders 343
Chapter Summary 346
Study Questions 347
References 348

CHAPTER 10

Medical Speech–Language Pathology 351

Overview of Medical Speech–Language Pathology 351
The Study of the Brain–Language Relationship 352
Aphasia 356
Motor Speech Disorders 369
Right Hemisphere Syndrome 383
Dementia 388
Traumatic Brain Injury 395
Dysphagia 401
Chapter Summary 412
Study Questions 414
References 415

CHAPTER 11

Special Topics in Speech–Language Pathology 419

Cerebral Palsy 419
Autism Spectrum Disorders 426
Selected Genetic Syndromes 434
Intellectual Disabilities 439
Augmentative and Alternative Communication 442
Chapter Summary 449
Study Questions 452
Selected Internet Resources 452
References 452

CHAPTER 12

Literacy and Speech–Language Pathologists	455
Speaking, Reading, and Writing: Similar but Different	457
Language Disorders Lead to Literacy Problems	459
Emergent Literacy: The Beginnings of Reading and Writing	459
Acquisition of Emergent Literacy Skills	463
Lack of Emergent Literacy Skills Leads to Literacy Problems	467
School-Age Children’s Reading and Writing	468
Assessment of Emergent Literacy Skills	472
Assessment of Reading and Writing	476
Literacy Intervention	478
Chapter Summary	482
Study Questions	482
References	483

CHAPTER 13

Audiology: Hearing and Its Disorders	487
Acoustics: The Study of Sound	488
Anatomy and Physiology of Hearing	494
Normal Hearing	499
Disorders of Hearing	501
Assessment of Hearing Loss	509
Hearing, Speech, and Language	522
Communicative Disorders of People with Hearing Impairment	523
Chapter Summary	526
Study Questions	528
References	528

CHAPTER 14

Audiological Rehabilitation and Education	531
Clinical Management of People with Hearing Impairment	532
Amplification	533
Hearing Aids	534
Auditory Training	543
Verbal Communication Training	551
Nonverbal Communication Training	553
Assistive Listening Devices	559
Counseling	563
Chapter Summary	564
Study Questions	565
References	566

CHAPTER 15

The Professions: Education and Organizations 569

- The American Speech-Language-Hearing Association 570
- State Regulation of the Professions 576
- The Road to Becoming a Professional 577
- Chapter Summary 585
- Study Questions 585
- References 586

Glossary 587
