

# Lesson 11: Outdoor Camp

## Regular Past

Give each student the Lesson 11 Pictures, glue, and scissors. Pre-cut the pictures for your younger students or have your older students cut out their own pictures. Place the pictures in front of the students. Then give each student the Lesson 11 Scene and read the following directions.

Let's look at our picture of the photo album. We'll talk about what the children did, and then you'll glue your own pictures.

Last week the kids in the after-school club visited an outdoor camp. Chan's dad works at the camp and invited the kids to visit and try out all the activities. While they were there, Chan's dad took pictures of everyone having fun. Today Chan brought in the pictures for Jake to put in the after-school club photo album.
