The Day I Met the Alien

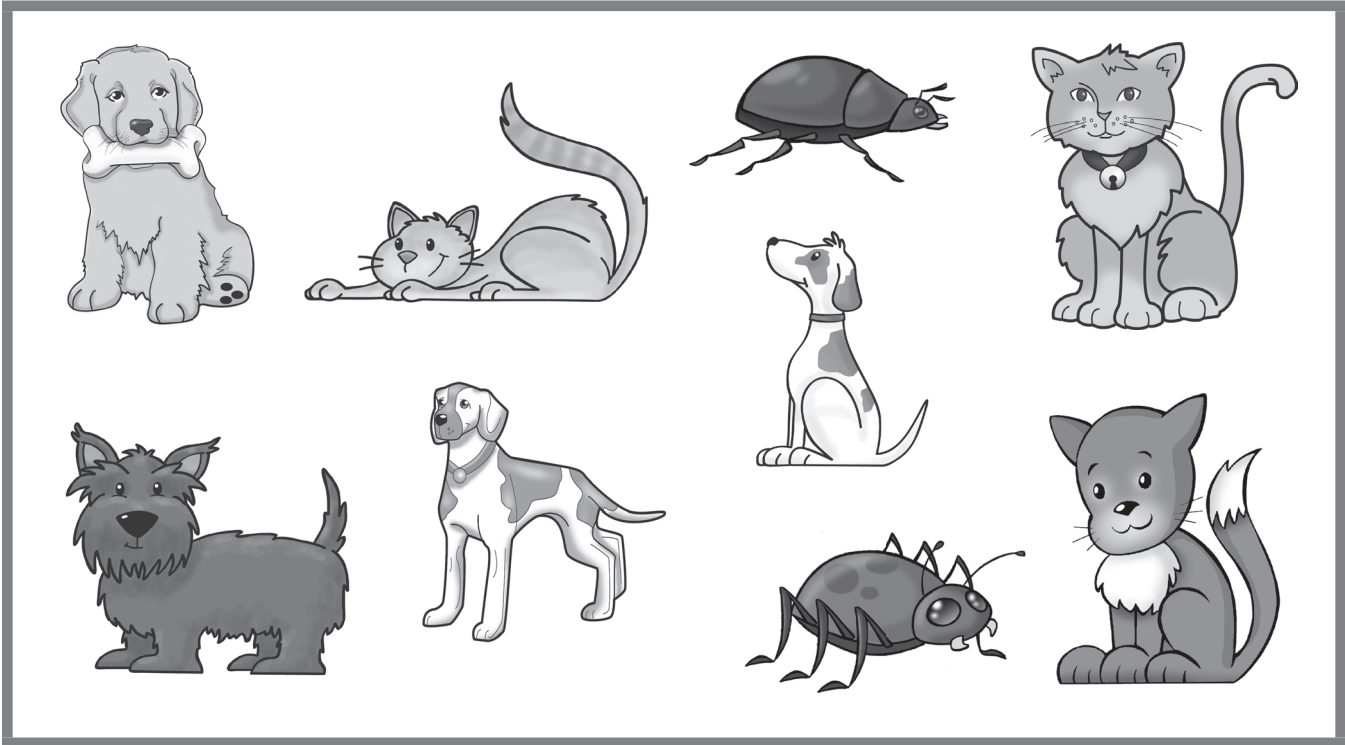

Before my alarm could go off, Pal was on my bed. He was barking like he'd seen a cat. At first, I thought he needed to go out. But, I was so wrong! Then, I saw why he was so upset. There was a tiny spaceship right on the table. It was right next to the box of cereal. While I reached for the phone, a small door on the spaceship opened up. Four robots raced to the cereal box. Next, they each grabbed a piece of toasted oats. Then, they raced back to the ship. At least my dog knows what happened.
