

What is a big voice?

A big voice is a very loud, excited,
rolling-on-the-ground, laughing voice.

What is a little voice?

A little voice is a very soft, happy,
talking-with-friends, quiet voice.

Both are good voices,
but sometimes we need one
and sometimes we need the other.

Sometimes we can be loud - as loud
as a LION.

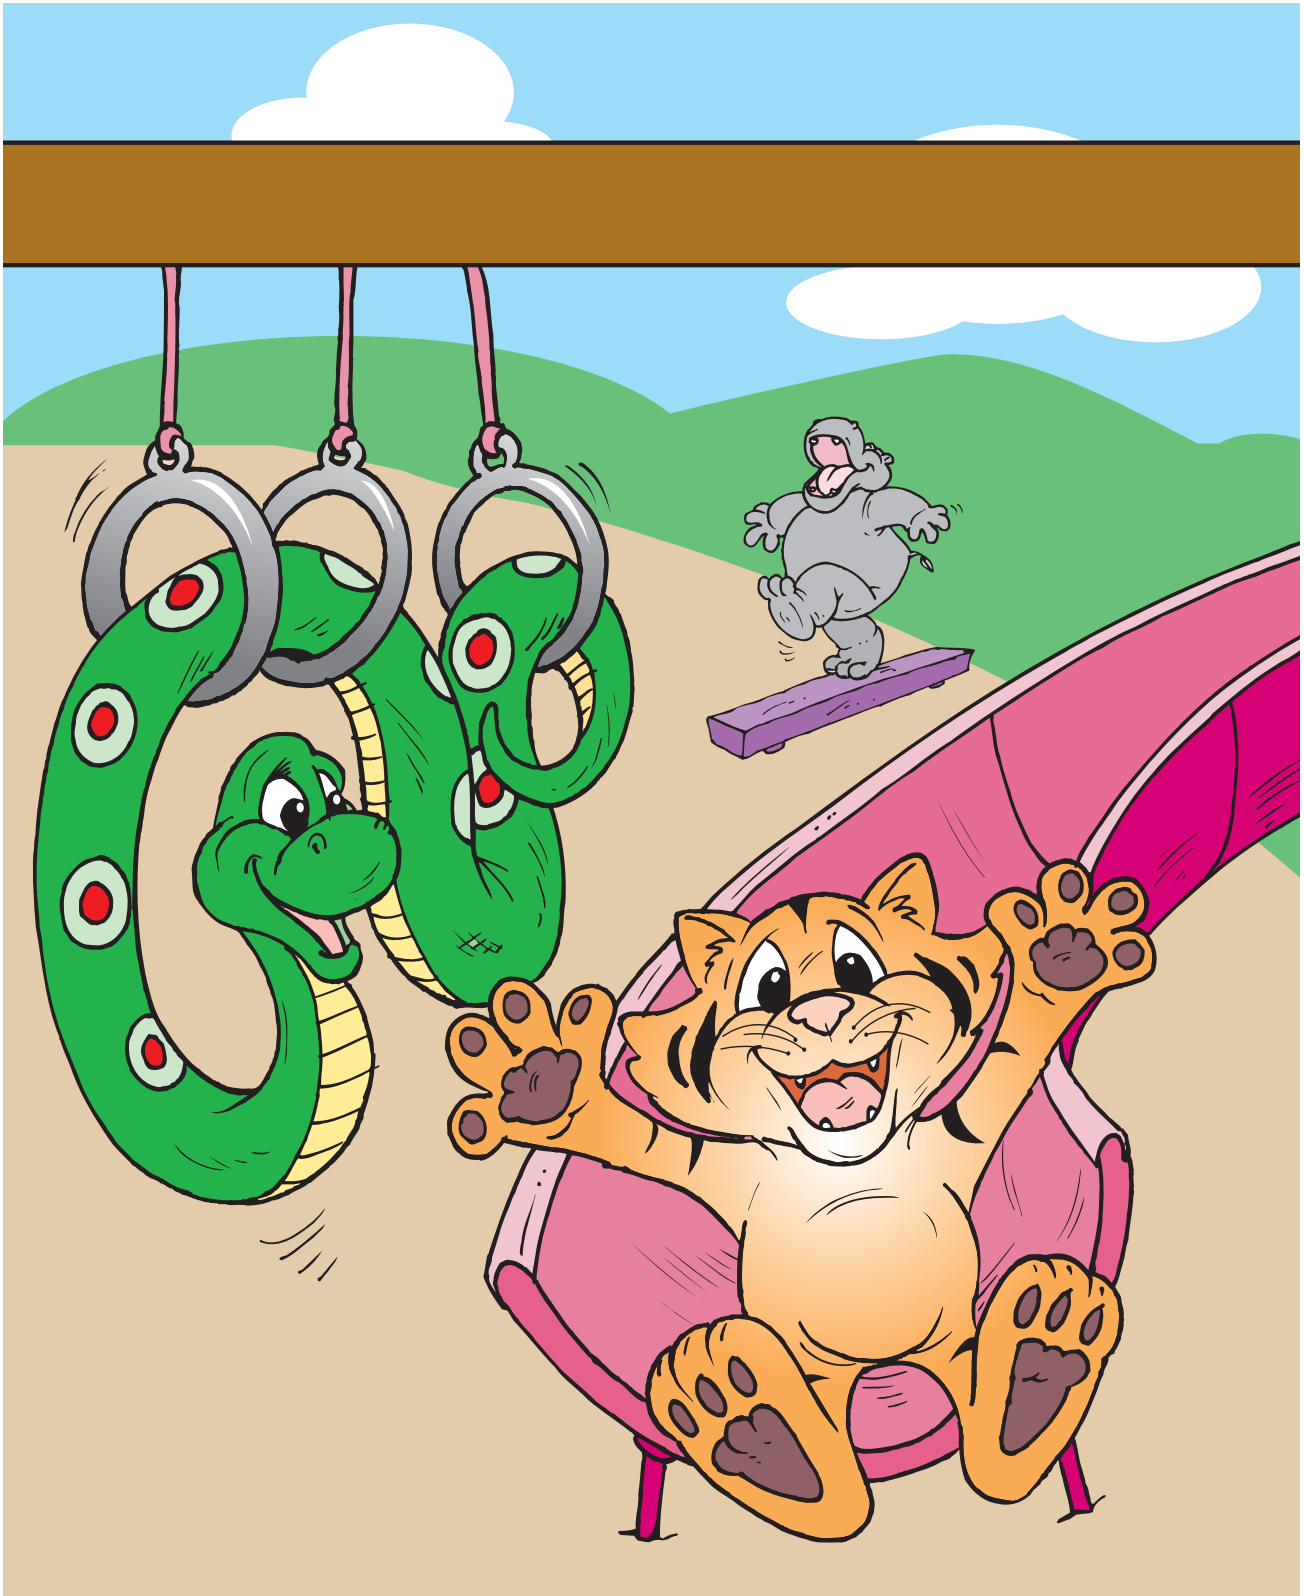

Sometimes we can be quiet - as quiet
as a MOUSE.

We have to decide which voice
is the BETTER voice to use.

What kind of voice should we use while we're playing outside on the playground?

We can use a loud voice while we're playing on the playground because it is fun to use excited, laughing voices outside.
