

Table of Contents

Introduction	7
Section One: Word Relationships	8
Unit One: Associations	
Task A: Recognizing Associations	10
Task B: Recognizing and Explaining Associations	11
Task C: Generating Associated Words	12
Task D: Generating Multiple Associated Words	14
Unit Two: Comparisons	
Task A: Similarities	16
Task B: Differences	17
Task C: Similarities and Differences	18
Unit Three: Synonyms	
Task A: Discriminating Synonym Pairs	19
Task B: Identifying Synonyms	20
Task C: Generating Synonyms	22
Task D: Generating Multiple Synonyms	24
Task E: Comparing Synonyms	27
Unit Four: Antonyms	
Task A: Generating Antonyms in Context	29
Task B: Generating Antonyms	30
Task C: Recognizing Antonyms in Sentences	32
Task D: Generating Multiple Antonyms	35
Unit Five: Multiple-Meaning Words	
Task A: Identifying Multiple-Meaning Words	38
Task B: Explaining Multiple Meanings	40
Task C: Generating Sentences	42
Task D: Defining Multiple-Meaning Words	44
Unit Six: Similes	
Task A: Similar Characteristics	46
Task B: Associating Similes	47
Task C: Completing Similes	49
Task D: Generating Multiple Similes	56

Table of Contents, *continued*

Section Two: Prosodic Interpretation 54

Unit One: Emotions

Task A: Recognizing Emotion	56
Task B: Demonstrating Emotion	58
Task C: Identifying Emotion Words	59
Task D: Using Prosody	61
Task E: Inferring Emotion	63
Task F: Discriminating Intonation	65

Unit Two: Sentence Intonation

Task A: Discrimination	68
Task B: Recognition	69
Task C: Demonstration	71
Task D: Written Association	73
Task E: Sentence Type	74
Task F: Sentence Punctuation	75

Unit Three: Stress and Rhythm

Task A: Discrimination of Syllable Stress	76
Task B: Discrimination of Word Stress	77
Task C: Identification of Syllable Stress	79
Task D: Discrimination of Rhythm in Phrases	80
Task E: Interpretation of Rhythm in Phrases	81
Task F: Identification of Stress in Sentences	82
Task G: Stress Interpretation	83

Section Three: Language Organization 86

Unit One: Convergent Naming

Task A: Object Identification by Two Clues	88
Task B: Object Identification from Multiple Clues	91
Task C: Category Discrimination	93
Task D: Category Identification from One Member	95
Task E: Category Identification from Three Members	97
Task F: Naming Members of a Subcategory	99
Task G: Category Identification from Parts	100
Task H: Object Commonality	102
Task I: Category Identification from Members/Non-Members	104
Task J: Identification of Non-Members	106
Task K: Completing Category Analogies	108
Task L: Clue Making	110
Task M: Clue Efficiency	112

Table of Contents, *continued*

Unit Two: Divergent Naming

Task A: Category Membership	113
Task B: Category Membership by Color	114
Task C: Category Membership by Function	115
Task D: Category Membership by Location	116
Task E: Category Membership by Size or Shape	118
Task F: Category Membership by Parts	119
Task G: Category Membership by Characteristic	120
Task H: Category Membership by Description	122
Task I: Divergent Analogies	124

Unit Three: Feature Description

Task A: Description by Color	126
Task B: Description by Size or Shape	127
Task C: Description by Texture	128
Task D: Description by Use	129
Task E: Description by Location	130
Task F: Description by Material	131
Task G: Description by Parts	132
Task H: Description by Motion	133
Task I: Description by Smell or Taste	134
Task J: Physical Characteristic Clue Generation	135
Task K: Non-Physical Characteristic Clue Generation	142
