

Table of Contents

Introduction	5
CD Index	6
Chapter 1: Preparing for a Patient Assessment	7
Interviewing the Patient	7
The Patient's Chart	8
Interpreting Patient Information	14
Problems Related to Phases of Swallowing	15
Comparison of Feeding Tubes	21
Chapter 2: Medicare Expectations and Other Billing Issues	23
170.3 – Speech-Language Pathology Services for the Treatment of Dysphagia	23
Some Medicare Requirements in Outpatient Settings	24
Coding Issues	27
Table 2.1: ICD-9 Codes for Dysphagia	28
Table 2.2: CPT Codes for Dysphagia Evaluation and Treatment	29
Chapter 3: Screenings and Bedside/Clinical Evaluations	30
Screening for Dysphagia	30
Bedside/Clinical Evaluations	31
Procedures Sometimes Used During Bedside Swallowing Evaluations	33
Drawing Conclusions and Making Recommendations	35
Team vs. Solo Approach	40
Medicare Guidelines	42
Accuracy of Bedside/Clinical Evaluations	43
Bedside Dysphagia Evaluations	44
Directions for Bedside Dysphagia Evaluation	45
Bedside Dysphagia Evaluation	51
Directions for Bedside Dysphagia Evaluation — Speech-Language Pathology Summary Sheet	53
Bedside Dysphagia Evaluation — Speech-Language Pathology Summary Sheet	54
Directions for Bedside Dysphagia Evaluation — Skilled Nursing Facilities Summary Sheet	55
Bedside Dysphagia Evaluation — Skilled Nursing Facilities Summary Sheet	57
Narrative Summary — Sample 1 (Fred)	59
Narrative Summary — Sample 2 (Ethel)	60
Chapter 4: Education and Advocacy: Patient/Family, Staff, Physicians, Administrators, and Payers	61
Education	61
Patient/Family	61
Staff	63
Physicians	64
Administrators and Payers	65
Advocacy	65
Chapter 5: Ethics: Decision Making in Rehabilitative and End-of-Life Situations	66
Principles of Biomedical Ethics	67
Understanding Patients' Rights	69
Case Examples	70

Chapter 6: Instrumental Assessment of Swallowing	79
When Is an Instrumental Exam Needed?	79
Options for Instrumental Assessments	80
The Role of the SLP in Instrumental Assessments	80
Videofluoroscopic Swallowing Study (Modified Barium Swallow)	81
Efficacy of the VFSS	83
Fiberoptic Endoscopic Evaluation of Swallowing (FEES®)	83
Efficacy of the FEES®	85
Comparison of the MBS and the FEES®	85
Questions and Answers About Instrumental Procedures	86
Barium Cookie Recipe	91
Cue Sheets for Choosing Compensatory Strategies During an Instrumental Swallowing Study	92
FEES® Examination Protocol	99
Chapter 7: Planning Dysphagia Treatment	101
Symptom/Physiological Cause/Safety or Function Issue	106
Long-Term/Functional Goals	108
Master List of Short-Term Goals	108
Treatment Objectives to Achieve Short-Term Goals	109
Treatment Techniques	125
Dysphagia Diets	138
Descriptions of Food Consistencies	143
Chapter 8: Documenting Treatment	144
Documenting Baseline Behaviors	144
Progress Notes, Monthly Reports and Discharge Summaries	145
Speech-Language Pathology Treatment Plan Sample	151
Progress Notes Examples	153
Progress Report/Recertification Sample	156
Discharge Report Sample	159
Discharge Summary Samples	160
Chapter 9: Special Considerations in Intensive Care	161
Why Are SLPs Called into Intensive Care?	161
Instruments and Devices	162
Managing Patients with Dysphagia in Intensive Care	169
Instrumental Assessments for Patients in the Intensive Care Unit (ICU)	175
Conclusion	175
Chapter 10: Using Data to Manage Dysphagia	176
What Streams of Data Do We Have Available?	176
On Which Areas of Patient Change Has Outcomes Research Focused?	177
What Else Is Needed?	181
Efficacy	181
Examples of Studies in the Literature	182
Conclusion	188
Glossary	189
